U.S.I. Eur-Laurentina, via Vincenzo Cerulli, 2/b - Roma

*Dear Madam, Dear Sir,*

*In welcoming you, we present the "Service Charter" of our health facility, drawn up in accordance with the reference regulations including DCA 311/2014 Regione Lazio, in which we report a series of information that we consider useful for patients and their cares.*

*La Carta Le will allow you to learn more about our structure and providing you with information on the health offer, on the specialized services provided and on the relative methods of access.*

*The hope is that, also through the reading of the Charter of Services, you can appreciate our constant commitment to concretely translate the values and principles that feed our work, which identifies in the "centrality" of the Patient the most important objective, in the face of diagnosis and therapies however at the forefront in the medical field, in strict compliance with the principles of Evidence-Based Medicine (EBM).*

*It should also be noted that this Service Charter refers to the Guides to the Services provided. In particular, for the main services provided, complete information brochures have been prepared, but easy and quick to consult, available at the appropriate exhibitors located at the waiting rooms.*

*Finally, we invite you to point out ideas and suggestions, which can contribute to the continuous improvement of the organization and efficiency of our health facility.*

*The Medical Director*

*Dr. Fabrizio Andrea Delfino*

**U.S.I. Eur-Laurentina, via Vincenzo Cerulli, 2/b - Roma**

## 1. PRESENTATION

**U.S.I. (Unione Sanitaria Internazionale) S.p.A.** was founded in 1953 by Dr. Luigi Sperone, becoming over the years the most present health reality in Rome, with a network of 24 health facilities widely distributed throughout the metropolitan area and more than 500 specialized operators.

U.S.I. Eur-Laurentina is located in Via Vincenzo Cerulli 2/b, is extended on one level and provides the following health services, subsequently deepened

- Clinical Laboratory Analysis;
- Specialized Medicine and Instrumental Diagnostics;
- Diagnostic Imaging (Traditional Radiology).

The structure is accredited with the National Health Service (NHS or, in Italian, SSN/SSR) of the Lazio Region (the regional accreditation resolutions are shown at the foot of the title page of this service charter). The numerable benefits are provided in agreement with the NHS or with private bodies, as detailed in the following chapters.

The facilities of the U.S.I. Group provide an integrated, wide and advanced healthcare offer in the field of Clinical Laboratory Analysis (Clinical Chemistry, Molecular Biology, Cyto-Histopathology), Diagnostic Imaging (Magnetic Resonance, CT, Digital Radio diagnostics, PET, Ultrasound), Specialized and Occupational Medicine, cancer prevention and treatment.

The **U.S.I. Group** consists of the following health facilities, all located in the municipality of Rome:

- |  |  |
|--|--|
| - <b>USI PRATI</b> , via Virginio Orsini, 18   | - <b>PIAZZA BOLOGNA</b> , via G. Squarcialupo, 36                  |

| - <b>CASA DI CURA MARCO POLO S.r.l.</b> , viale Marco Polo, 41, 00154 Roma (Ostiense). The only private single-specialist oncology clinic in the Lazio Region, it offers oncological diagnosis and treatment courses in the specialties of Radiotherapy, Medical Oncology, Nuclear Medicine with Radiometabolic Therapy. |  |

## 2. QUALITY AND CLINICAL RISK MANAGEMENT

U.S.I. applies since its foundation advanced quality control and management systems of all health services, which are provided in compliance with guidelines and analytical methods recognized by the scientific community.

The company's "vision", "mission" and quality policies are aimed at providing high-quality health services, using advanced biomedical technologies, the involvement and competence of staff, correct communication, compliance with mandatory requirements and volunteers, health promotion and protection of patient rights, risk prevention techniques and continuous improvement.

U.S.I. Eur-Laurentina, via Vincenzo Cerulli, 2/b - Roma

Business processes are monitored through indicators that also refer to: outcomes and characteristics of performance; waiting times; rate of repetition of withdrawals; analytical accuracy; satisfaction of users, patients and Stakeholders; incidence of "non-conformities", complaints, accidents or "quasi-accidents" in the field of Health and Safety in the workplace, adverse events or "sentinel", the effectiveness of the actions consequently undertaken.

The controls include participation in quality planning and quality programs at national and international level.

All U.S.I. Group properties are certified according to the international standard UNI EN ISO 9001:2015 issued by a prestigious certification body. The laboratory of U.S.I. Prati has obtained the IMQ LAB-MED certification, which provides for compliance with particularly strict standards in terms of Quality and accuracy of the analytical result.

The health facility is also accredited with the Health Service of the Lazio Region (NHS or SSN/SSR), on the basis of the Additional requirements for the accreditation of health facilities, governed by the reference legislation.

Any elements of clinical risk are evaluated at all stages of the patient's health path.

### 3. INFORMED CONSENT, RIGHTS AND DUTIES OF THE PATIENT

U.S.I. Eur-Laurentina actively guarantees the following patient's rights:

- to be informed in an appropriate and comprehensible way by the health personnel on their state of health and on characteristics, risks, alternatives in relation to the health services that concern them, expressing their consent or denial in advance;
- to be assisted with attention, impartiality, with respect for one's own time, one's own dignity, one's own needs and philosophical or religious convictions;
- transparency and simplicity of administrative paths;
- the confidentiality and confidentiality of the health services received;
- safety and quality of health services;
- to the complaint and to an appropriate response.

Users are required to always inform the acceptance or health staff of the structure of any needs related to their health conditions, to prevent any risk of adverse or unwanted events (e.g. in case of problems related to patient mobility or therapies already in progress).

It recalls the importance of user behavior based on respect and understanding of the rights of other users and patients, as well as trust and collaboration towards health personnel.

Compliance with the schedules of the services booked is required, informing in case of delays or cancellation.

It is also recalled that smoking is strictly forbidden in the structure.

### 4. USERPROTECTION, SUGGESTIONS AND COMPLAINTS

Suggestions or complaints can be made by users through the [website www.usi.it](http://www.usi.it), on "carte blanche" or on the Satisfaction *Questionnaire* that can be collected at the waiting rooms of the facilities and to be inserted in the appropriate containers or to be sent by ordinary mail, e-mail or fax to the addresses indicated in this Service Charter.

The functions in charge and the collection of complaints are Secretary and each signed report will la Segreteriabe ensured a response as soon as possible and in any case no later than 30 days from the presentation of the same, except for important obstacle causes.la Direzione Sanitaria.

It is also possible to lodge a complaint with the TRIBUNALE PER I DIRITTI DEL MALATO (Viale Angelico, 28, 00195 Rome, Tel. 06/3729924, 06/6385881 e-mail: [roma@cittadinanzattiva.it](mailto:roma@cittadinanzattiva.it)).

### 5. ACCESS TO BENEFITS AND COSTS

- To access services in **accreditation with the NHS**, a request from the attending physician (binding NHS on "pink prescription" or electronic) is required, which also indicates any exemptions. As a rule, the commitment is valid for one year and contains up to 8 benefits for the same branch. For services in agreement with the NHS, the same rates are applied as for public facilities.
- To access services under a private regime, or in agreement with private bodies, a request from the attending physician or specialist may be necessary (refer to the following chapters for specific services).
- At the acceptance secretariats or by contacting the unique number **06 32868.1** information is provided on times, costs and methods of preparation for the health services provided and estimates can be requested. On the **website [www.usi.it](http://www.usi.it)**, special "information" can also be consulted for the correct preparation of the patient for the required health services.
- It is possible to pay for the services by cash, bank checks, bancomat or bankcards.
- For any **emergencies**, the health personnel concerned evaluates the execution of the analyzes in the time required, establishing the time of release of the complete or partial report in the shortest possible technical time.
- The health structure implements health promotion initiatives, preparing information campaigns and specific or multidisciplinary health packages in relation to the major diseases treated. Health packages may include medical, radiological or clinical analysis services. It is possible to refer to the website or request information during the acceptance phase in relation to any initiatives in progress.
- Staff are available at the property who can communicate in **English** and/or other foreign languages. An English version of the Service Charter is available, which can be requested at the Segreteria.
- The structure guarantees health services that take into account the religious convictions or cultural aspects of the Patient. Please point out any needs during the acceptance phase to agree on the appropriate methods.
- At all the health facilities of the U.S.I. Group there are preferential bears for patients in conditions **of fragility** (e.g. reduced mobility or pregnancy) or affected by oncological pathologies.
- In consideration of the **Covid-19** health emergency, access to the structure is regulated in accordance with the reference legislation, as indicated in the appropriate signs. In the structure are available detergents-disinfectants for the hands and any additional protective aids.
- Further information on how to book and access can be found in the paragraphs on specific services.

### 6. THE WITHDRAWAL OF REPORTS

The collection of the reports and any attachments can be made at the Acceptance or "on-line", Secretary activating the relative service at the time of acceptance.

Please note that the reports can only be delivered:

- to the person directly concerned or delegated person (who must present his identity document, the proxy and a copy of the identity document of the delegating);
- in the case of a minor, to the person concerned with an identity document or to the person exercising parental authority, equipped with an identity document;
- to the guardian or curator with an identity document and the necessary documentation.

As a rule, duplicates of digital reports can be released immediately, for any duplicates of paper reports, the ordinary times defined according to the type of report are to be considered (see chapter 7). However, request information from the Acceptance Secretariat.

## 7. PERFORMANCE AND WAITING TIMES

All health services provided at the health facility and listed and detailed in the following chapters, are authorized and in the cases indicated, accredited, based on the accreditation resolutions reported on the title page of this service charter.

In the following chapters are detailed for each branch of the specialist, under accreditation with the NHS or private:

- Name of the Reference Manager
- Information on how to book and access
- Information on the services provided and the related waiting times for booking, access and reporting.

## OUTPATIENT SPECIALIST MEDICINE

**Medical Director:** Dr. Fabrizio Andrea Delfino

### Booking and access

- Mrs. and Mr. patients can book health services on site, by phone or on the website.
- To access services in accreditation with the NHS, a request from the attending physician is required (SSN binding on "pink prescription" or electronic).
- At the time of the visit Mr. and Mrs. patients may show any documentation of previous diagnostic tests.
- Secretary is available for information on the services provided under the private regime or in agreement with private entities, on the relative times, costs and on the specialist personnel of reference.
- Consult the [website www.usi.it](http://www.usi.it) or Acceptance for information on the correct preparation of the Patient for the required health services. la Segreteria

### Authorized specialist medical services, provided privately and related waiting times

At the health facility, the following outpatient specialist medicine services are authorized and privately provided:

- |                                 |  |
|---------------------------------|--|
| ○ ANGIOLOGY                     | ○ GASTROENTEROLOGY                       |
| ○ VASCULAR SURGERY (visit only) | ○ GERIATRICS (*)                         |
| ○ GENERAL SURGERY (visit only)  | ○ INTERNAL MEDICINE (*)                  |
| ○ DERMATOLOGY                   | ○ NEPHROLOGY (*)                         |
| ○ ENDOCRINOLOGY                 | ○ ORTHOPEDICS AND TRAUMATOLOGY           |
| ○ OBSTETRICS AND GYNECOLOGY     | ○ ONCOLOGY (*)                           |
| ○ OCCUPATIONAL MEDICINE         | ○ PEDIATRICS (*)                         |
| ○ OPHTHALMOLOGY                 | ○ RHEUMATOLOGY (*)                       |
| ○ ENT                           | ○ DISEASES OF THE RESPIRATORY SYSTEM (*) |
| ○ UROLOGY                       |  |
| ○ CARDIOLOGY                    |  |
| ○ ALLERGOLOGY (*)               |  |

(\*) services during the organization phase, request information in the Secretary

The waiting times for booking and for the collection of reports and attachments of outpatient specialist medicine services provided in private care are shown in the following table:

Waiting times for Outpatient Specialist Medicine services provided privately		
Performance	Waiting list for reservations	Report and annexes
Outpatient specialist medicine	1 max. 5 days	At the end of the service

U.S.I. Eur-Laurentina, via Vincenzo Cerulli, 2/b - Roma

## DIAGNOSTIC IMAGING

*Technical Director of the Radiology section:* Dr. Paolo Lucernari

### Booking and access

- Mr. and Mrs. Patients can book on site, by phone or on the website.
- A medical prescription may be required for private benefits.
- Secretary is available for information on the services provided under the private regime or in agreement with private entities, on the relative times, costs and on the specialist personnel of reference.
- Consult the **website [www.usi.it](http://www.usi.it)** or Acceptance for information on the correct preparation of the Patient for the required health services. la Segreteria

### Radiological restations provided in private mode and related waiting times

- RX ORTHOPANORAMICA
- RX HIP
- RX BASIN
- RX THORACIC SPINE (DORSAL)
- RX LUMBOSACRAL SPINE
- RX COLUMN IN FULL UNDER LOAD
- RX CERVICAL SPINE
- RX SKULL (3 PROJECTIONS)
- RX VACUUM ABDOMEN
- RX INTESTINAL TRANSIT
- COMPLETE DIGESTIVE RX
- RX ESOPHAGUS
- RX ELBOW - FOREARM
- RX MAMMOGRAPHY (BILATERAL)
- RX MAMMOGRAPHY (UNILATERAL)
- RX OBLIQUE PROJECTIONS IN FLEX EXTENSION
- RX VERTEBRAL MORPHOMETRY
- RX TELECRANIUM
- RX FEMORE - LEG - KNEE
- RX SHOULDER - UPPER LIMB
- RX WRIST - HAND
- RX FOOT - ANKLE
- AXIAL RX OF THE PATELLA (3 PROJECTIONS)
- RX LARYNGOGRAPHY WITH CONTRAST
- RX TELECUORE
- CHEST RX
- ULTRASOUND: Articular, Mammary, Soft parts, Pelvic, Prostate (Transrectal biplane), Testicular, Thyroid.
- ECHOCOLORDOPPLER: Abdominal aorta, Renal arteries, Carotid, Thyroid, Testicular, Supra-aortic vessels.

It is possible to request information from the Secretariat on any further radiological services performed at the facility or at other facilities of the U.S.I. Group in private.

The waiting times for booking and for the collection of reports and attachments of diagnostic imaging services provided in a private regime are reported in the following:

Waiting times for radiological services in private mode			
Performance	Waiting list for reservations	Withdrawal of the report	Image collection
GENERAL RADIOLOGY	0 max. 2 days	3 working days	10 minutes from the service with the possibility of delivery on digital support
ORTHOPANORAMICS	0 max. 2 days	3 working days	
ULTRASOUND, ECHOCOLORDOPPLER	1 max. 5 days	Images and any report available at the end of the service	
MAMMOGRAPHY (low dose) TOMOSYNTHESIS	1 max. 5 days	3 working days	

U.S.I. Eur-Laurentina, via Vincenzo Cerulli, 2/b - Roma

## CLINICAL LABORATORY ANALYSIS

*Technical Director of the Laboratory of Clinical Analysis:* Dr. Ivana Antigoni

*Technical Director of the Laboratory of Clinical Analysis HUB (AXA-PALOCCO, via Eschilo, 191):* Dott.ssa Diana Grassi

### Booking and access

- To access services in accreditation with the NHS, a request from the attending physician is required (demanding NHS on "pink prescription" or electronic).
- Blood samples are made without reservation by going from 7.00 to 11.00, every day including Saturday, directly at the reception office of our structure.
- Consult the website [www.usi.it](http://www.usi.it) or la SegreteriaAccettazione for information on the correct preparation of the Patient for the health services requested.
- Withdrawals are made at home, la SegreteriaAccettazione is available for the related information.
- It is specified that at the laboratory of the structure the "pre" and "post-analytical" phases of the examinations are carried out. The analytical phase of the sample is carried out in the reference "HUB" laboratory of the U.S.I. Group. Relative information is always reported in the reports, which indicate the laboratory that performed the analysis.

### Clinical analysis services provided under the accreditation regime with the NHS

The waiting times for booking and for the collection of reports and attachments of clinical analysis services provided under the accreditation regime with the NHS are shown in the following table:

Waiting times for clinical analysis under accreditation with the NHS – General Basic Laboratory	
Performance	Waiting time for the report
CLINICAL CHEMISTRY, COAGULATION AND HEMATOLOGY	Same day
HOMONOLOGY (thyroid, fertility, tumor markers, hepatitis B markers)	2 days
IMMUNOLOGY (TORCH, AIDS, HCVAB)	3 days
ALLERGOLOGY	5 days
MICROBIOLOGY AND PARASITOLOGY	Depending on the timing of cultivation

**Private clinical analysis services provided**

- HYDROXYPROLINURIA (M. OF ZENDER)	- NICKEL IN THE URINE	- SHIGELLA (CULTURE IN FECES)
- IMMNOELECTROPHURESIS	- N-N-DIMETHYLFORMAMIDE	- SIDERURIA
- LYMPHOCYTE HYMMNOPHENOTYPING	- NORMETANEPHRINE	- GILBER SYNDROME (UGT1A1 GENE
- CIRCULATING IMMUNOCOMPLEXES	- NORMOTEST	POLYMORPHISM)
- URINARY IMMUNOELECTROPHYSIS	- NRAS (CODON 12-13-61)	- CONGENETIC DEAFNESS (WHOLE GJB2
- IMMUNOGLOBULINS - IGG 1	- DIBUCAINE NUMBER	GENE)
- IMMUNOGLOBULINS - IGG 2	- HOMOCYSTEINE	- CONGENETIC DEAFNESS (SCREENING OF
- IMMUNOGLOBULINS - IGG 3	- URINARY HOMOCYSTEINE	MAJOR GJB2 GENE MUTATIONS)
- IMMUNOGLOBULINS - IGG 4	- ONYCHOMYCOSIS DIRECT RESEARCH	- SM (AB-ANTI SM)
- IMMUNOGLOBULIN A	- ONCOCHECK	- STREPTO M-TEST
- IMMUNOGLOBULIN D	- URINARY OSMOLARITY	- STREPTOZYME TEST
- IMMUNOGLOBULIN G	- OXALEMIA	- SWIM - UP
- IMMUNOGLOBULINS G- SUBCLASSES	- OXALLURIA	- T.P.H.A.
- IMMUNOGLOBULIN N	- QF PCR (13-18-21-X-Y)	- T3 (ECL)
- SALIVARY IMMUNOGLOBULINS IGA	- P.S.A. FREE (ECL)	- T3 UPTAKE
- IMMUNOSUPPRES. ACIDIC PROTEIN	- P53 WHOLE GENE	- T4 (ECL)
- INACTIVATOR C-1 ESTERASE	- PA - PAI GENE POLYMORPHISM - 1	- TAF
- INIBIN B	- TRADITIONAL PAP SMEAR	- TAN TG ANTIGENIC BUFFER
- INSTABILITA' MICROSATELLITES	- PAPP-A	- TCA (TRICLOACETIC ACID)
- FOOD INTOLERANCE (181 ALIM.)	- ALLELIC PATTERN	- TCE (TETRACHLOROETHYLENE)
- FOOD INTOLERANCE (94 ALIM.)	- PHADIATOP (CAP SYSTEM)	- TELOPEPTIDE - URINE
- URINARY IODINE (MCG/L)	- LEAD	- HOWELL'S TIME
- HYPOCHONDROPLASIA	- LEAD IN URINE	- XYLOSE TEST
- CREATINE KINASE ISOENZYME	- PYRUVATE ERYTHROCYTE KINASE	- RUBELLA AVITY TEST (IGG)
- ALKALINE ISOENZYME PHOSPHATASE	- PLASMINOGEN	- PREGNANCY TEST
- ISOENZYMES OF ISYLASE	- PLASMODIUM MALARIAE (RESEARCH)	- TEST DI NORDIN

It is possible to request information from the secretariat about any further examinations introduced after the issuance of this service card.

The waiting times for booking and for the collection of reports and attachments relating to clinical analysis services provided in a private regime are shown in the following table:

<b>Waiting times for clinical analysis in private</b>	
Performance	Waiting time for the report
CLINICAL CHEMISTRY, COAGULATION AND HEMATOLOGY	Same day
HOMONOLOGY (thyroid, fertility, tumor markers, hepatitis B markers)	2 days
IMMUNOLOGY (TORCH, AIDS, HCVAB)	3 days
ALLERGOLOGY	5 days
MICROBIOLOGY AND PARASITOLOGY	Depending on the timing of cultivation
MOLECULAR BIOLOGY	7 days - 30 days
CITO GENETICS (karyotype, Arry CGH)	7 days - 20 days
CYTO-ISTO PATHOLOGY	15 days

**U.S.I. Eur-Laurentina, via Vincenzo Cerulli, 2/b - Roma**

**8. LOCATION AND CONTACT DETAILS**

**U.S.I. EUR-LAURENTIA** is located in Rome in Via Vincenzo Cerulli 2/b and is easily accessible via B (Fermata Laurentina) and the countless bus lines 462.

**WEBSITE: [www.usi.it](http://www.usi.it)**

**EMAIL: [info@usi.it](mailto:info@usi.it)**

**TELEPHONE NUMBERS:**
